Opinions of the members of the Faculty of Arts (obtained by correspondence) on the recommendations of the Board of Studies in Teachers' Training which met on January 25, 1941. The proceedings of the aforesaid meeting of the Board are also circulated herewith.

The following members of the Faculty approve of the recommendations of the Board. —

1. Mr. S. C. Chatterji.
2. Rev. Canon T. D. Sully.
3. Col. T. F. O'Donnell.
4. Mr. Saghir Ali.
5. Mr. M. N. Tolani.
6. Mr. N. D. Swami.
7. Mr. S. S. Shukla.
8. Mr. C. P. Brahmo.
9. Mr. Badri Prasad Mathur.
10. Mr. S. K. Bagchi.
11. Mr. L. C. Tandon.
12. Mr. C. S. Pande.
13. Mr. K. S. Bhatnagar.
14. Pt. Ayodhyanath Sharma.
15. Mr. V. D. Misra.
16. Mr. H. B. Richardson.

Mr. H. L. Puxley says: "I am not really in a position to express a competent opinion now that I am so far removed from University affairs."

Mr. P. P. Shahani agrees with the recommendations; but he would recommend that every candidate for B.T. degree be required to pass in the practical tests on (a) Physical Training and (b) Educational Handwork or Gardening. Fifty marks for each test may be the maximum.

Mr. W. Adiseshiah has the following comments and suggestions to make:—

1. (1) I am in agreement with the General Scheme for the B.T. degree, as laid down in Appendix A of the Report.
1. (2) It appears to me that the Syllabus for Paper I—Principles of Education—does not take sufficient account of Modern Developments in Psychology. I would suggest the inclusion of 'Gestalt Psychology and its bearing on Education' to be included in the section on learning. The theory of the Gestalt psychologists has so profoundly influenced current psychologies, that it is now being mentioned in all text-books of Modern Psychology. I would therefore suggest the inclusion of Koffka's book "The Growth of Mind" in place of Sturt and Oakden's book "The Psychology of Education" among the books recommended for this paper.

2. It would be desirable to include in Paper II, particularly in connection with the study of problems which confront the teacher in his dealings with pupils, something regarding what the New Psychology has to say with regard to Education. For sections 5 and 6, I would suggest that Dr. Crichton Miller's stimulating book 'The New Psychology and the Teacher' be recommended.

Miss Champawati W. Ketkar gives her opinion as follows :—

"I quite agree with the recommendations of the Board of Studies in all cases except one, which is in connection with the Statute 24. As the Statute No. 24 states, I do not think that a course of training in educational handwork or gardening should be made compulsory to every student. A course of training in Physical Education is quite essential hence it should be made compulsory."

No replies have been received from other members.

APPENDIX A.

(Ref. Executive Council Res. No. 114 of 8th March, 1941.)

Minutes of the second meeting of the Committee appointed under Executive Council Resolution No. 161 of April 23, 1940, to scrutinize and report to the Council on the applications of private candidates, ex-students and compartmental candidates for permission to appear at the University examinations of 1941, held by correspondence.

With reference to Executive Council Resolution No. 79 of November 22, 1940, accepting the report of the first meeting of the Committee held on November 11, 1940, the Committee considered the applications of the 15 candidates in whose cases enquiries were being made and which were consequently left pending on the date of the first meeting of the Committee

1. The Committee recommend that the following five candidates be permitted to appear at the ensuing examinations of the University in 1941 as their applications are regular in all respects:—

1. Mr. Ram Pratap Sanadhya (Allahabad) for B.A. Examination.
2. Mr. Jagdamba Prasad Varma (Allahabad) for M.A. Previous Examination.
3. Mr. Kailash Nath Srivastava (Benares) for M.A. Previous Examination.
4. Mr. Indra Chandra Jain (Bikaner) for M.A. Previous Examination.
5. Mrs. Shanti Bhatnagar (Meerut) for M.A. Previous Examination.

2. The Committee recommend that the applications of the following candidates be rejected as they do not serve in recognized educational institutions —

1. Mr. Jang Bahadur Mathur (Gwalior) for B.A. Examination.
2. Mr. Purushottam, K. R. Cholkar (Gwalior) for M.A. Previous Examination.
3. Mr. Shanker Lal Verman (Gwalior) for M.A. Previous Examination.
4. Mr. Shambhu Dayal Dube (Gwalior) for M.A. Previous Examination.
5. Mr. Arjun Rao Baber (Gwalior) for M.A. Previous Examination.
6. Mr. Bhagwan Das Sharma (Gwalior) for M.A. Final Examination.

3. The Committee considered the applications of the following two candidates who are Superintendents of Education in the Municipal Boards of Ghaziabad and Kasganj respectively:—

1. Mr. Dharam Prakash Agarwal for B.A. Examination.
2. Mr. Bhagwat Saran Agarwal for M.A. Final Examination.

A reference was made to the D.P.I., U. P., as to whether the Superintendents of Education in the Municipal Boards should be treated as Inspecting Officers under section 4(2) (c) of the Agra University Act. The D.P.I. is of opinion that they should not be so treated. The Committee, however, note that Mr. Bhagwat Saran Agarwal was permitted to appear at the M.A. Final Examination of 1940 which he could not take and whose fee has been held over for the same examination of 1941. The Committee, therefore, recommend that in view of these facts Mr. Bhagwat Saran Agarwal may be permitted to appear at the M.A. Final Examination of 1941. The application of Mr. Dharam Prakash Agarwal may, however, be rejected

4 Mr Chaturbhuj Mamoria (Nathdwara) offered Geography for the B.Com. Examination. This subject has, however, not been offered by the regular candidates of the Colleges and, therefore, Mr. Mamoria was asked to take another subject in place of Geography. No reply has been received from him so far in spite of several reminders. The Committee is of opinion that his application may be entertained provided he offers another subject and sends his reply not later than the 1st of January, 1941.

5. The application of Mr. Badri Kedar (Lalitpur) for M.A. Previous Examination in Mathematics be rejected, because he is a B.Sc. and can take only the M.Sc. and not the M.A. Examination in Mathematics. Mr. Badri Kedar does not agree to it.

SHYAM SUNDAR SHARMA,

Convener.

25. The Minutes of the meeting of the Board of Inspection held on March 7, 1941, were confirmed.

26. With reference to Board of Inspection Resolution No. 12 of November 22, 1940, the Board considered the following Reports on the recognition in new subjects of colleges:—

Resolved that since Military Science can be offered as an additional optional subject only by the B.A. and B.Sc. students and because there is no corresponding provision in the Statutes for the B.Sc. (Ag.) Examination, recognition in Military Science cannot be granted to B. R. College which is preparing candidates only for the B.Sc. (Ag.) degree.

Resolved further that the question of the recognition in Botany with Plant Breeding be referred to the panel of Inspectors appointed to report on the fulfilment of conditions of affiliation for the B.Sc. (Ag.) standard by B. R. College.

27. With reference to Board of Inspection Resolution No. 24 of March 7, 1941, the Board considered the opinion of Mr. C. Maya Das in regard to the fulfilment or otherwise of the conditions of affiliation of B. R. College, Agra, in the light of the points raised in the supplementary report of the Deans of the Faculties on the Annual Returns of the colleges for 1939-40 and the reply of the Principal of the College.

Resolved that the report on Bareilly College, Bareilly, be generally approved and forwarded to the Executive Council with the recommendation that the college be asked to take action particularly in regard to the following:—

- (8) That the hostel latrines should be shifted and brought nearer the hostel. They should be made pucca and preferably be of approved sanitary type.
- (9) That a neat Muslim kitchen be constructed at an early date and the contractor should be asked to vacate the kitchen immediately.

Resolved that the report on S. D. College, Cawnpore, be generally approved and forwarded to the Executive Council with the recommendation that the college be asked to take action particularly in regard to the following:—

- (1) The contribution of the management to the Funds of the College from endowments and subscriptions should be approximately Rs. 10,000 annually. Fees realised from students should in no case be used to make up this share of the management's contribution.
- (2) The whole amount realised from students as "Building Fee" should be earmarked for improvements in existing buildings and for new constructions, and not diverted to any other purpose. Similarly, the amount collected as "Games Fee" should be spent entirely on games, athletics and improvement of playgrounds.
- (3) The new grade of Rs. 80-10-200 for lecturers should be altered to Rs. 100-10-200, so that no whole-time teacher of University classes receives a minimum salary less than that laid down by the University.
- (4) The Management should enter into agreements with Messrs. G. R. Talwar and B. L. Misra, part-time lecturers in law.
- (5) The number of books on English Literature and History is small and these sections need to be improved in order to make the library more adequate for post-graduate study in these subjects. The college should subscribe for the Journal of Indian History of the Indian Historical Society.
- (6) In view of the insufficiency of the library, the annual grant for books and periodicals should not be less than Rs. 1,500.

- (8) The Dewey Decimal System of cataloguing should be introduced in the Library as soon as possible.
- (9) The Commerce Museum if it is to be of any use to the students, must be removed to a larger room as recommended by the previous Inspectors, where the exhibits can be properly displayed and kept clean.
- (10) There should be two terminal examinations in the year in addition to the Promotion Examination. In deciding promotions the entire record of work throughout the year of each student should be taken into consideration. Definite rules to govern promotions should be formulated.
- (11) A careful record of each student's work and conduct throughout his career in College should be maintained.

- (12) Provision should be made without delay for either the Warden or the sub-warden of the hostels to live on the premises so that he may be able to exercise proper supervision and control

The College should be asked to state the action taken in this respect before the reopening of the College in July 1941.

- (13) The floors in the hostels and in the verandahs of kitchens are in an unsatisfactory condition and need urgent and more lasting repairs.
- (14) Students in the hostels should be compelled to use the urinals provided, and, if necessary, buckets may be placed at suitable places for use at night. The practice of committing a nuisance in the verandahs of the hostels should be strictly penalised
- (15) Some form of compulsion in the matter of games or physical exercises should be introduced in the case of students in the hostels.
- (16) The practice of allowing students to live in the city in rented lodgings should be discouraged. In cases where this is unavoidable, proper supervision should be exercised over such lodgings and a record kept of all day-students not being with parents or guardians.

RESOLUTIONS OF THE INTER-
UNIVERSITY BOARD.

School stage to go up to the Universities and qualify themselves for diplomas and degrees in their own lines. It ought to be possible for the Universities to have entrance tests suitable for such courses of study, instead of a single entrance for all candidates irrespective of the courses to be taken. In furtherance of this opinion the Board desires to draw the Government's and Universities' attention to the following resolution previously adopted by it: -

RESOLUTION No. XIII OF THE
THIRD CONFERENCE:

That while this Conference favours the extension of the course of study for the degree examinations over three academic years instead of two as at present, it is at the same time strongly of opinion that it would not be desirable to add one more year to the Ordinary Pass degree course or to reduce the period of study for the Degree examination from four years after the High School stage to three, unless and until the standard of instruction in the Secondary Schools is materially improved.

That with a view to effecting the improvement in Secondary education and thus making possible a higher standard of University education the Conference is of opinion that the period of study in a University for a Pass Degree should be at least three years, although the normal length of the period during which a pupil is under instruction should not be increased, but they are of opinion that this period should be divided into four stages of (1) Primary, (2) Middle (in both of which stages the medium of instruction in non-language subjects should be exclusively the Vernacular), (3) Higher Secondary (in which Stage the medium of instruction should be the Vernacular whenever this is practicable), and (4) University education, covering five (or four), three and at least three years respectively--there being a

formal examination at the end of each stage only thus avoiding the abuse of too frequent formal examinations.

The Conference is further of the opinion that until this reorganization is effected the total period of study after the passing of the Matriculation Examination prescribed for a Pass degree should not be reduced from four years (which is the period usually prescribed for Indian Universities at the present time) to a period of three years.

RESOLUTION No. VIII OF THE
FOURTH CONFERENCE:

Resolved—

- (a) That this Conference is of opinion that where the Intermediate Courses are controlled by the Universities no change, in the present four year post-Matriculation course leading to a degree, is desirable unless and until the Secondary system of education is reorganised and put on an efficient basis.
- (b) This Conference is further of the opinion that pending such reorganisation of Secondary education, where such Intermediate courses are not controlled by the Universities, such instruction should be brought under the purview of the Universities

RESOLUTION No. XX:

The Board recommends the relaxation of the following examination rules for University students who have been accepted for war services:

1. Relaxation of age limit (wherever it exists for admission to the examinations to the extent of their war service plus one year.

RESOLUTION NO. VII:

Resolved that the following resolution passed at the annual General Meeting of the Indian Section of the Institute of Chemistry of Great Britain and Ireland held at Madras on the 4th January, 1940, be circulated to Universities:

the training of Chemistry for the manufacture and standardization of drugs and foods is covered by the syllabus of the Institute of Chemistry. The Institute realizes that dispensing is not within its scope but the training for Pharmaceutical Chemistry and analysis of food and drugs with a view to finding employment in the manufacture and analysis of drugs and food, should be primarily done by chemists with specialised qualifications in those subjects. It is felt this can only be done if the subject be placed under the Faculty of Science.

RESOLUTION No. VIII:

Resolved that the following resolution adopted and forwarded by the Executive Committee of the Indian Science Congress Association be circulated to Universities.

(a) *Resolution passed by the
Section of Anthropology:*

The Anthropological Section of the Indian Science Congress Session at Madras reiterates the resolution moved by Prof. Flaure and passed unanimously at the Silver Jubilee Session of the Congress at Calcutta in 1938 that in view of the urgent necessity of an intensive study of biological traits and social institutions of primitive as well as advanced peoples and cultures in India, it is essential that the Universities and provincial administrations should make adequate provisions for the teaching and research in Anthropology.

That Anthropological Section of the Indian Science Congress is also of opinion that in view of the extensive scope for anthropological and prehistoric work in South India, the 'Universities of South India should organize a department of prehistoric and anthropological studies, both cultural and physical, at the earliest possible opportunity. It considers that the institution of a degree course in Archaeology would be the first and most appropriate step towards this end, particularly in the Uni-

S. D. College.—Centre for B.A., B Com, M.A, M.Sc.

The number of candidates appearing at this centre is B.A. 54, B.Com. 111. M.A. Previous 120. M A Final 64, M.Sc Previous 3 and M.Sc. Final 1, the total being 362.

The maximum number of invigilators provided is 14. Of these one invigilator belongs to the staff of the D A -V. College, while the rest are on the college staff. On going round the rooms, I observed that most of the rooms had only one invigilator present. There were seven women candidates seated with the male candidates.

Question papers are kept in a steel almirah in the Principal's Office. I saw the covers of the question papers given out for this morning's papers. I was surprised to find that even at 8-30 A.M. none of the certificates pasted on the covers of question papers had been signed. The Principal informed me that these certificates are signed after the answer-books have been collected. In my opinion the whole object of certificates is thereby frustrated.

The following suggestions are made with regard to this centre.—

- (1) That the certificates of opening question papers should be signed at the time of opening the papers.
- (2) In the larger rooms more than one invigilator should be provided, specially on days when most of the candidates are taking their examinations.
- (3) If possible, a separate room be provided for women candidates. Arrangements should at least be made for retiring room for women candidates.

B.Sc. (Ag.) Centre at the Agricultural College, Cawnpore.

The number of candidates here is very small and arrangements for seating etc., were quite adequate. At this centre although the certificate of opening the question papers had been signed by two of the invigilators, the Superintendent had not himself signed it. The question papers and blank answer-books are kept carefully.

D. A.-V.—College Centre.

The following candidates were taking their examinations at this centre: -

B.A	...	212
B.Sc.	30
M.A. (Prev.)	33
M.A. (Final)	25
B.Com.	70

Total 370 including 9 women candidates.

The maximum number of invigilators is 15 of whom two come from other colleges. The question papers are kept in a steel almirah in the General Office. The Principal informed me that the steel almirah was quite secure. I would recommend that the almirah or safe containing question papers should not be kept in the general college office, where there is a constant stream of persons coming and going out. It should be kept in the Principal's own office which is quite commodious.
